Snow Mountain Ditch Again Flowing Water

By EDW. C. UREN

There probably is no place in the country where community spirit of co-operation is better exemplified than it has been here in Nevada City during the last six days, when an average of 40 men have attired themselves in long legged gum boots and set forth each morning with shovels on their backs to lift the blockade in Snow Mountain ditch.

Shortly after seven the crew assembled at Forest Service headquarters and were taken by trucks furnished by the Service to a point beyond the County Hospital. Here they transferred to the large sled donated by the Nevada County Lumber Company and the Miner's Foundry. The county's "thirty Caterpillar' piloted by Ted Deal, then started on it's long treck to Scotts Flat.

Up over the hump above the Montana mine, where the road ascends at least a sixteen per cent grade, this little tractor pulls it's load of human freight through from 3 to 5 feet of snow with a power and sturdiness almost unbelievable.

SNOW DEEPER WITH ELEVATION

The snow increases in depth as elevation is gained. Now and then the tops of a few fence posts are visible. A tense quietness pervades over all. Even the birds are absent, but occasionally deer tracks are seen where the animals have come down off the hills toward the creek bottom. Small trees are bent to the ground, but occasionally trees six or eight inches in diameter have been broken off by the weight of snow which has overcome them. A man would soon perish in this white wilderness unless he were equipped with snow shoes.

Arriving at the first crossing of Snow Mountain one crew of a dozen men go up the ditch while the rest continue on four miles further to the road crossing at Scott's Flat. Here part of the crew, headed by the more experienced ditch men go up toward the head to follow the water down, for this part of the ditch has already been cleared and awaits the flushing.

ONLY HARD WORK GETS RESULTS

The rest follow down the ditch, walking through the slush, broken ice and water between banks of snow four feet deep above the ditch which press inward until there is often less than two feet space between

Two miles down they come to where work ceased the day before. Now there is ice three or four inches thick and water soaked snow underneath. The ice resists and has to be broken up with an axe. Standing in this ice cold water and heaving the broken ice and snow up over a seven or eight foot bank is no picnic. It is hard work.

In going and coming it is necessary in places to climb up out of the ditch on account of the depth of water. The snow is not frozen hard enough to sustain a mans weight and with first one leg down, then the other, progress is slow and very tiring.

READY FOR HEAD OF WATER

But Tuesday was rather a cheerful day after all, for along about two o'clock in the afternoon the crews from the west and east met; the ditch was cleared at last and ready for the flushing head of water. But for some reason the crew returning from the head reported no water came through until long after noon, for reasons unknown and impossible to determine. This delayed the final opening a full half day.

However, with five or six hundred inches of water to float out the ice and snow now in the canal and what is bound to drop into it from time to time in the next few days, Snow Mountain will again be functioning after a blockade which has deprived Nevada City of water for over three weeks.

MIGHT HAVE BEEN PREVENTED

That this hazard could have been prevented by turning in six or seven hundred inches at the head when the storm started, is conceded by all the ditch men familiar with the situation.

And while the citizens have so cheerfully accomplished what the N. I. D. could, or did not do, they insist that steps now be taken to see that such a preventable occurrence does not repeat itself.

QUID PRO QUO IN ORDER

Had not the volunteers worked so valiantly in reopening Snow Mountain, Nevada City would have had no water from this source for probably another month and it is the general feeling and opinion that the work be not regarded in the nature of a donation to the Nevada Irrigation District but that the District can do no less than reimburse the city for the 250, or more, shifts of labor and the expense by crediting an equal value of water to us As for the hazard and inconvenience we have suffered, it is hard to imagine any recompense.

The Forest Service and it's chief, Richard Bigelow, have supplied the trucks and tools and have given every assistance possible to the city in it's dilemma. Their interest and help is deeply appreciated.

NEW MACHINERY FOR FRENCH CORRAL MINE

In a letter to Clarence C. Meyer at French Corral, A. A. Wise, president of the American Machine Company of Oakland, states that heavy mining machinery is being shipped to the Harrison French gravel mine and that men will be put to work there immediately. The mine is adjacent to the southern boundary of French Corral township and has been a rich producer in past years.

Meyer and Calvin Linnell have been in charge of the mine since water ceased and production stopped last summer. Meyer in the interests of his father, Thomas Meyer, owner of the mine and Linnel in the interests of Clarence Knights, James Rodda of Oakland and Harold B. Wright of Nevada City, are holders of a lease and bond on the property. In December the Wise interests bought the lease and bond from the latter three through T. M. Darnell of El Cerito.

F. J. Chesson is to be in charge of the mining operations in place of Darnell, according to Wise's letter.

Heavy snow that has fallen in the Sierra-Nevada mountains this winter, will greatly help the working of gravel mines on the San Juan ridge. The Harrison French mine will be no exception. The reservoir that goes with the mine has been full for several weeks. Last year a big head of water came into the reservoir continually until the middle of July. This year the season should be a great deal longer.

SKI CLUB READY FOR BIG THRONGS

With Sunday and Monday looming up as two of the biggest winter sports days of the year, the Nevada City-Grass Valley Ski Club has prepared for a banner week end. Travel conditions to and from the course will be good. The snow plows have cleared a two-way road all the way from this city to the course.

The club has advertised this week end both in Marysville and Sacramento newspapers and they anticipate a big response. The Marysville and Yuba City folk have become educated to the course this winter and many are expected from that district.

The snow is six feet deep, the toboggan slide is in excellent condition and skiing will be at it's best.

MOTOR LICENSE TIME EXTENDED

SACRAMENTO, Feb. 9—(UP)—California motorists have until February 14 to apply for their 1933 motor vehicle licenses. The renewal period was supposed to have ended February 3, but acting on the suggestion of Governor Rolph, a "moratorium" was declared by the department of motor vehicles. All persons who apply for licenses after February 14, will have to pay a double fee.

Attorney Harry M. McKee has returned from a trip on professional business in San Francisco.

POSTOFFICE AT SACRAMENTO IS ROBBED, $323,000

Over K. N. X. broadcast last night, it was reported that in one of the boldest rebberies in the annals of California, the Sacramento postoffice was invaded by two bandits and two pouches of mail taken, in which there was $323,000. The bandits are reported to have escaped.

IT'S A SAD TALE MATES! HE SPENT A BAD NIGHT IN A N. C. R. R. BOX CAR

It must have been just Gus Orzalli's bad luck that he happened to be returning from a visit to the Bay, when the snow blockade was at it's worst a few days ago.

Of course if the Narrow Gauge officials had known that Gus was going to drop off at Colfax all dolled up with his ice cream top coat and his low shoes and dapper silk socks, they would have had a coach ready for him, but they had rough work ahead and weren't carrying any fancy equipment this night; in fact they were running rather light and had nothing more than an empty box car behind the engine.

But Gus was glad to take passage in the "rattler" as the hoboes call it. It didn't look very inviting ,but if everything went along all right he would be home in a little over an hour.

The train arrived at Grass Valley on schedule and left for Nevada City about 7:30 in the evening, but they hadn't problocked the plow attached to blocked the plow attacked to the pilot of the engine. Then it became a game of back up and charge, in which Gus and another lone passenger, who hailed from Montana, were shuttled back and forth along the length of the car with every impact against the snow banks.

Gus says he lost count of the number of times he went back and forth over the same old ground, but he remembers distinctly going back twice during the night to the gas plant for the engine to quench its thirst in Wolf Creek—then back to the fray again.

It got cold, awfully cold. Even the fast leg action necessary to maintain a balance wasn't sufficient to create warmth, so he made such loud lament that he was overheard by the engine crew and invited into the cab where he could at least toast his shins a little.

And it came to pass that along about four o'clock in the morning they had finally battered their way to a point about half a mile west of Town Talk —just a few minutes walk from the highway, and a short down hill run to home. But what could a fellow do in three feet of soft snow with low shoes and silk socks? It was out of the question.

Anyhow, the train now had to return to Grass Valley to go out on its regular five o'clock morning run to Colfax, and Gus went along with it. The fellow from Montana was peeved because he had paid for a ticket to Nevada City and thought he should have been deliveded at his destination. And Gus says his ice cream overcoat is so soiled with soot and engine grease that it is about ruined.

EACH HEAD OF THIS DOUBLE-HEADED TROUT FIGHTS FOR FOOD

MT. SHASTA, Feb. 9—(UP)—A two headed Loch Leven trout has for four years proved the greatest "freak" at the state fish hatchery here.

The fish has two normal heads, two pair of eyes and feeds with either left or right mouth.

The heads fight for the food, employes said, the right head usually winning over the left. Sex of the fish has not been determined.

ALL MINES ARE WORKING NORMAL FORCES AGAIN

Thursday saw the return to normal working of all of the big quartz mines in the Nevada City, Grass Valley district. Some of the mines were closed for the 16 days that water was lacking with which to cool the air compressors.

Tuesday morning the Murchie mine started up again full force and is now working the entire crew of about 200 men. The Murchie mine, helped a great deal in opening up the Cascade ditch. They furnished gum boots, blankets, skis and food. They also sent eight or ten of their own employees to work on the ditch.

The Hoge mine, about four miles north of this city, was closed down for but two days and one night. Through the efforts of the management, they managed to keep going throughout most of the storm period. For several days all shifts of men were taken from Nevada City to the mine by means of a huge sled that was drawn by a caterpillar tractor. There are now 50 or 60 men at work on the Hoge regularly and production is back to normal.

The Empress is the only big quartz mine in the district that continued work without a layoff during the storm. All of the employees are said to have chipped in a dollar each and with additional money given by the company, a man was hired to keep the Rough and Ready road open so that the men could get back and forth to work. The full crew of 40 men is working there now and it is said that the management expects to double that number by spring, when the new mill will be ready to operate. The Empress is about five miles west of Nevada City.

All of the big quartz mines in Grass Valley had started full production by Thursday morning, with plenty of water for mining purposes. The North Star, Empire and Pennsylvania of the Newmont Company have over 600 men at work and the Golden Center about 75. The Idaho Maryland has almost 200 and the Spring Hill about 15. There are more men employed in the Grass Valley and Nevada City mines than there have been for many long years. Mining in this ditsrict looks bright.

GRANNINI TELLS OF CUT IN COSTS

SAN FRANCISCO, Feb. 9—A. P Giannini, interviewed today at the bank's headquarters about rumors concerning his retirement, stated emphatically, "Nothing is further from my thoughts. During the proxy battle I pledged myself to protect and promote the best interests of the stockholders and I haven't forgotten my pledge.

"Very few people realize fully how much has been accomplished. The Expense Account of the Bank has been reduced by over $473,000 per month. Current profits for the last six months of 1932 averaged $693,440 per month. I have visited nearly every branch personally and loans have been carefully surveyed, losses determined and adequate reserves set up. A substantial gain in deposits has been achieved. The morale of the staff is splendid. The senior executives are in close touch with their problems, have them well in hand and are enthusiastic about their work. My job is not yet done and talk about a successor is premature."

WIFE RUNS DOWN HER SPOUSE IN SNOW STORM

CHESTER, Feb. 9—(UP)— A new kind of a motorist-pedestrian accident was recorded here when Mr. W. B. Leyton ran down her husband during a snow storm.

When the road became invisible due to heavy snow, Layton got out of the car and walked ahead, his wife following his dark figure with the automobile.

Everything was fine until Layton's clothing became covered with snow and he blended into the storm. Mrs. Layton over-took him and ran him down. He suffered only a few slight injuries.

Water Fills Reservoir; Schools Open Again

Yesterday was the sixth day that Nevada City Volunteers under the leadership of the fire department have gone fourth to wrestle with the snow in Snow Mountain ditch in an effort to bring the water down to Sugar Loaf reservoir. There was a head of water in the ditch yesterday of about 200 inches down as far as the little tunnel. It is believed that by this the volunteers will have water flowing into the reservior.

Leaders of the volunteers claim that the work done on the Snow Mountain ditch will result in getting water in the reservoir some two weeks earlier than otherwise would have been the case.

The committee in charge of this work reports that they have received a cash contribution from the National Hotel and Coffee Shop, Paul Rohrig and John Muscardini have sent substitutes to work for them.

CANADA HILL RESEROIR FULL

Ninety inches of water were flowing into the Canada Hill reservoir yesterday, according to Superintendent H. H. Hallet Jr., who states that temporary repairs were made on the outlet pipe Monday night which prevented more than a temporary interruption in the city's water service. An all-night shift worked at the repairs. A new section of pipe, he states, will be necessary to replace the broken length.

The flow into Canada Hill reservoir is about one half of normal. Hallet states, but he expects it to show a constant increase from now on. The reservoir is full and is now open to the other two reservoirs and they are being gradually filled.

SCHOOLS ARE OPENED

Wednesday morning saw both the Nevada City high school and Washington Grammar school once more open their doors for regular classes after more than two weeks of inattendance due to the recent water situation which has been partially remedied.

At the Washington Grammar school there were 49 absent, ten of which were from the first grade and but one from the eighth grade. At the high school, Principal H. E. Kjorlie reported that but eight students failed to report for the Wednesday morning classes. The final-semester examinations were continued yesterday. They had been interupted by th eschool closing three weeks ago, due to bad weather and water

FAMILY IS REPORTED STRANDED NEAR DELHI

Henry Huckins of San Juan yesterday sent word to the Red Cross organization of Nevada City that a family has been stranded for several days at Box Canyon on the road to Alleghany near Delhi. The family consists of a man and his wife and a small child. A resident of that section, it is reported, has divided its meager rations with the stranded family, which cannot get their car through the snow.

RESORT WAITRESSES, SISTERS OF PROSPERTY

SACRAMENTO, Feb. 9—(UP)—Prosperity may be just around the corner for most people, but for the resort-hotel waitress it lurks at every table, according to a report of the state department of industrial relations.

At the more swanky resorts, the report indicated, waitresses may get as much as $5 or $6 in tips during a single meal, though the daily average was figured at from $8 to $10.

SCHOOL DISTRICTS JOINED TO N. C.

The Board of Supervisors at their session Wednesday ordered by resolution the consolidation of Indian Flat, Willow Valley and Blue Tent school districts with that of Nevada City.

The order has the legal sanction mendation of the grand jury which, in its report, incorporated the recommendation of Mrs. Ella M. Austin, county superintendent of schools. The resolution was taken upon motion of Supervisor Cary Arbogast of this city.

The order has th elegal sanction of the school law, which provides that districts may be consolidated where contiguous and where the school houses of the districts are within three miles of the one in which they are to be merged.

Mrs. Austin states that the consolidation was recommended as a measure of economy. Several pupils from the three districts have been attending the Nevada City high school, and the only recompense received for this instruction is the amount per pupil alloted by the state.

Few students attend the Indian Flat and Blue Tent schools, and the Willow Valley school is closed, the pupils being transported to Nevada City by automobile to attend school here.

The supervisors adopted a strong resolution condeming the attempt to hold a special election for the recall of Governor Rolph.

PORCH COLLAPSES UNDER SNOW IMPACT

A mass of snow slipped from the roof and crashed ten feet below upon the porch roof in front of G. Gildersleeve's printing establishment in Commercial street shortly after 8 o'clock last evening. The porch gave way under the sudden impact and collapsed onto the sidewalk. Fortunately no one was passing under it at the time.

ROSEVILLE AND LOCAL CAGERS CLASH TONIGHT

After several weeks of inactivity, the Nevada City high school basketball teams will crash into action again tonight at Redmen's Hall gymnasium against the class A and B teams of Roseville high school. A month ago, both teams went to Roseville and took the count.

When the Roseville A team downed the Nevada City team, they won second place in the Sierra Foothill Basketball League. Before the game the two teams had tied for second place, each having lost one game only to Placerville. With the Roseville defeat, the local lads are now occupying third place.

The Nevada City boys have had but one practice before tonights game. Roseville on its record has the edge for tonight's game. If Nevada City does win, it will be by a narrow margin.

Yesterday afternoon the teams practiced for the first time in a week, due to the precarious condition of Redmen's Hall . The hall has been braced and repaired so that it is once more in good condition for basketball.

Coach Bev Barron thinks that if the boys forget everything else and go out on the floor tonight with but one thought and that to win the games, they will have a fighting chance to put over wins. In the B team game at Roseville, the local team came closer to winning than from any other B team in the circuit. The score was 29 to 18. In past years, especially last year, Nevada City was singularly successful in putting out a winning B class team.

Because of the rest the teams have had during the past week, they should be raring to go. The game last week against Grass Valley at Grass Valley, was postponed by the valley school because of the lack of water and heating facilities.

Coach Barron expects to be able to put forth the full strength of his two teams as due to the long rest, all of the boys on the crippled list have had a chance to recover. The starting lineups will not be chosen until just before game starting time, which will be 7:30 for the B team and 8:30 for the A team. Admission will be 20 cents for students and children and 40 cents for adults.

THE WATER SHORTAGE

With ready civic pride and public spirit, the firemen of Nevada City, realizing the disasterous consequence that may any moment result from a water shortage, have led a big community effort to bring water to this city. Volunteers during the week end have come to the aid of the Nevada Irrigation District to bring water down the Snow Mountain ditch.

If no other end were served, the fact that the entire city rallied to support the firemen in this emergency, welding 2,000 people into a common purpose, would justify the firemen in their splendid effort to avert a catastrophe, whether epidemic or fire, or both.

While all this is true, there are many who believe that, had the Nevada Irrigation District been alive to its responsibilities to provide some 6,000 people with water, it would have rendered such a community endeavor unnecessary.

Providentially both Nevada City and Grass Valley have escaped the worst consequencies that a water shortage may entail. While the supply or either city is far from satisfactory at the moment there is good reason to believe, barring another storm, that it soon will be adequate. In giving thanks for this relief, let us be fair minded, and along with our firemen and other public spirited citizens who met the emergency with courage, resourcefulness and hard work, let us thank the Nevada Irrigation District manager, Will Durbrow, and the fifty or more men under his direction who have been employed continuously for the past two weeks, working long hours and enduring tremendous hardships, in clearing the ditches.

The real handicap of the N. I. D. in such an emergency as this, does not lie so much in management as it does in organization and function.

For, here is a corporation that functions in four ways.

1. It supplies water for domestic uses to two cities. If it fails in that function it jeopardizes the lives and property of these 6,000 people.

2. It supplies water to several large mining properties. If it fails there, it throws hundreds of men out of employment.

3. It supplies the P. G. & E. with water for power purposes. If it fails there, it loses an enormous revenue, which would tend to cripple it in its other functions.

4. It supplies hundreds of farmers with irrigation water. If there is a failure in this function, the farmers suffer.

Now the most important and vital function, without regard to the revenue derived, is that of supplying domestic water to the two cities. But in the organization of the N. I. D. the cities have less to do with the management than any farmer, member of the district, with a few acres. The farmer has a vote for the directors. None of the 6,000 people in the cities have that.

It must be remembered that when Will Durbrow took over the management of the N. I. D. he assumed the enormous burden of debt and mismanagement left by his predecessors. He has brought re-financing and re-organization near to a more sound and satisfactory basis. In the engineering and administrative phases, he has done the best he could do with what he has had to do with.

It now becomes apparent that the fault, which places two cities in such a precarious position, which inflicts upon us the closing of schools and mines, which leaves us wide open to certain destruction in event of fire, and an unprecedented loss of life in event of epidemic, and which entails a financial loss of thousands of dollars to all those dependent upon the mining industry, should be placed squarely upon the shoulders of the N. I. D. directorate.

It is the policies and the politics of the board of directors that richly merit the censure they are now receiving. That policy of saving at the spiggot and wasting at the bunghole, evidenced by the neglect of the ditches during the fall, and the huge expenditures now necessary to open them, that policy of saving a few hundred dollars for a few hundred farmers and sacrificing the interest of 6,000 people in Grass Valley and Nevada City—these clearly reveal the incapacity of the directors to realize where their highest responsibility lies.

Good Work Boys!

We've seen those daring huskies
A fightin' of our fires,
An' we've dubbed 'em worthy scions
Of their pioneerin' sires;
We've seen 'em wet and grimy
When the hellish fight was won,
Perhaps we've slapped 'em on the back
An shouted, "good work son!"

We know they'll come a runnin'
When they hear the dread alarm,
We've seen 'em risk their necks an' lives
To save the town from harm;
You bet they savy fightin' fire,
But now we want to tell
When it's strictly necessary
They can shovel snow as well.

Yes, I know, there were the others—
Determined men an' true,
Who helped to win the battle
For me and likewise you;
But this tribute's for the laddies
Who fired the openin' gun,
An' kept the snow a flyin'
Till the work at length was done.

We'll not be soon forgettin'
The storm of 33
Or the shortage of the water
That confronted you and me;
An' we won't forget the laddies
Who brought the water down,
Here's to 'em, an' good work boys,
From a mighty grateful town.

A. MERRIAM CONNER

THE PAY STREAK

By H. M. L.

Three men working Wednesday on Snow Mountain ditch, volunteers sponsored by the Nevada City Fire Department, were ordered off the ditch by the N. I. D. ditch tender. It was his ditch, he declared, and he would take care of it. Complaints coming in that the work of the big group of volunteers who worked on Snow Mountain ditch Monday, Tuesday and Wednesday to open it up and let the water into Sugar Loaf reservoir have been hampered by refusal of the N. I. D. to let more than 200 inches down from the head of the ditch. It begins to look as if the N. I. D. ditch forces do not welcome aid from the Nevada City Fire Department and the community volunteers who enrolled for the work under the firemen's banner. There may be payroll reasons why they do not welcome such aid.

* * *

Wednesday Grass Valley citizens tested water again. We mean that literally. Eventually it will become the clear sparkling beverage characteristic of Nevada county that means much to the health of the people here.

* * *

The recall movement seems have degenerated into a recoil. The recallers are recoiling from their job under the fierce blasts of the Governor and public condemnation of an enterprise which would cost the state a half million, and get us nowhere.

* * *

Once more all roads lead to the Sierra snow fields. Cold nights and sunny days are preserving our winter playground for hundreds of week-end visitors, if they hear about it. The roads are clear from Sacramento to the Ski Club. Come on you low-landers! Come up here where every cubic foot of sparkling air is charged with ozone, vitamines and elixir of life! (Note: We are not quite sure about the vitamines) Bring the bob sled and the tobogan, the skis and the snow shoes, and the boys and girls and the neighbor's boys and girls! Come where the snow is deep and the sun is bright! They'll never forget it, and you will have to come again!

* * *

The snow in Broad and other streets is beginning to have a second hand look. It is becoming a bit grimy and has ceased to be attractive to the eye. The firemen, recognizing that used snow ceases to have value, are threatening to use the fire hose on it, and wash it all into the creek the moment water pressure in the reservoirs warrants. Here's hoping the pressure will soon be enough for the job.

* * *

We are seeing many faces on the street that we have not seen for 3 weeks or more. The folks in the hills are beginning to dig out and are coming into town to replenish their stocks of necessities. Most of these people read the Nugget and most of them patronize advertisers therein. Pardon us if we re-iterate: "it pays to advertise."

A Bloomfield resident has a pet coyote. On moonlight nights it mounts the highest snow mound and bays the moon, or rather yaps at it. It is an interesting performance and serves to link good Fido, Queenie, Rover, or Old Dog Tray, with his wild progenitors. For, those who value their sleep at night there is little choice between a coyote's yips and the long far cry of a bell-mouthed hound. Will some one explain why the entire canine tribe bay the moon?

o

"Is Jack a loud dresser?"

"Is he? You should hear him hunting for his collar button!"

"Daughter, daughter! Isn't that young man gone yet?"

"No, father, but I've go him going."

ALTA CALIFORNIA INC. MEET IN AUBURN SAT.

The monthly meeting of the Alta California Inc., will be held at the Hotel in Auburn tomorrow with gold mining as the main topic. The meeting will start at 10 A. M. Mining talks will be given after the lunch which starts at 12:15 and the meeting will be over by 2:30 in the afternoon. Alta California, Inc. is directed by the supervisors of twenty-one inland Northern California counties. They strive for the betterment of the counties that they represent.

A letter received at the Nugget office from the Alta California Inc. head office in Sacramento reads in part as follows:

"We are extending you an invitation to attend our monthly meeting to beheld Saturday, February 11th, at the Hotel Auburn, at twhich time we shall have various phases of the mining industry under discussion. Three talks will be given at the noon luncheon session which should be especially interesting, after which the visitors will be conducted for a tour of immediate mining activities.

As we have exploited the winter sports events during the past two months, so during the next few months we are going to give much of our radiao time, together with magazine and newspaper motorlogues, to the advancement of the mining industry and every effort will be made to aid in the development of latent possibilities throughout th mountain counties of Alta California We believe that the "days of '33' are all important to the mining industry, although the '49 lore is the means of inducing considerable tourist travel to visit the Mother Lode counties.

"We hope very much that it will be possible for you to be present Saturday and your cooperation in encouraging others to come will be appreciated.

Sincerely, Edward Morris,
Managing Director.

WANTED INFORMATION

Gentleman (at police station) Could I see the man who was arrested for robbing our house last night?

Desk Sergeant: This is very irregular. Why do you want to see him?

Gentleman: I don't mind telling you. I only want to ask him how he got in the house without awakening my wife.

o

"Didn't you see me down town last night? I saw you twice."

"No, I never notice people in that condition."

FIND GOLD

Old prospector perfects sure method of locating gold and silver. Two years tests under every condition, both on top and underneath the ground has absolutely proven the efficacy of these detectors in every case. Old prospector says, "These will locate gold for you in 10 minutes where otherwise it might take a year without them. With so many prospecting these days, it pays to have these extra eyes that see underneath rocks and rivers and make the biggest finds. Hundreds of thousands of dollars in gold is available to ambitious miners who go after it intelligently and equipped with these gold finders." You can't go wrong by using a prospector's invention and if you don't like it we will refund your money. Send $1.50 for small size or $3 for the standard size and illustrated booklet.

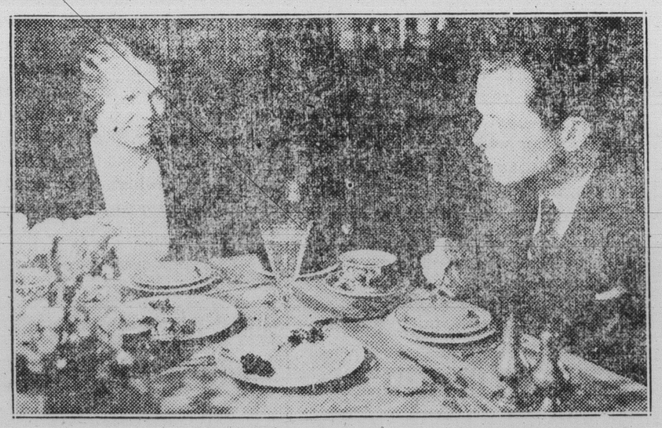
TO GLORIFY BREAKFAST



Toast and coffee and the morning paper!

Coffee and toast and the morning paper!

Ho hum! That's the great American breakfast—prepared with misgivings, swallowed in haste, not remembered long enough even to be repented.

It is perhaps a great pity that the days when American breakfasts were mighty affairs, suited to pioneering activities, are gone forever. Yet there are still ways to arouse even lagging modern breakfast appetites.

One is to add the delicious tang of pineapple to the morning meal. And nutritional studies have recently revealed a definite health reason for the addition. For canned pineapple has been found to be a generous source of vitamins A, B, and C and five essential minerals. It is also revealed as an aid to the digestion of proteins such as meat and eggs and to the prevention and relief of acidosis.

So here is a modern breakfast suited to modern needs—appealing to the appetite, healthful and simple to prepare—two slices of pineapple, a cereal if desired, two poached eggs on toast, and coffee.

LEGAL NOTICES

No. 6101

Notice of Sheriff's Sale Under Execution

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA IN AND FOR THE COUNTY OF NEVADA.

RETAILERS CREDIT ASSOCIATION OF SACRAMENTO, A CORPORTATION, PLAINTIFF, VS. CHAS. THOMPSON, DEFENDANT.

By virtue of an Execution issued out of the Superior Court of the State of California, in and for the County of Nevada, wherein Retailers Credit Association of Sacramento, a Corporation is Plaintiff and Charles Thompson is defendant.

Upon a Judgment rendered on the 3rd. day of January 1933 for the sum of One Thousand One Hundred and Fifty dollars and ninety-four cents, ($1,150.94), with interest thereon at the rate of 7 per cent per annum from the date of said judgment till paid, together with Twenty-Four dollars and Seventy-Five cents, ($24.75), costs and disbursements at the date of said judgement and clerks accruing costs of $1.00 I have this day levied upon all the right, title, estate and interest of Charles Thompson, defendant, as aforesaid in and to the following described real property, to wit:

All that certain property situate lying and being in the County of Nevada, State of California, and more particularly described as follows:

Lot 11 (Eleven) of Section Thirty-one (31), Township Sixteen (16) North, Range Ten (10) East, Mount Diablo Base and Meridian, containing fourteen and 35-100 (14.35) acres, more or less.

ALSO, a ¼ interest in Lot 13-Lot 5 and South half of Lot 9 in the North part of Sec. 6, Twp. 15 N. Range 10 E., M. D. M. known as the Colorado Mining Claim about 80 acres, more or less. Recorded in Vol. 300 page 208 in Nevada County, California.

Also, about the center of SE¼ of Sec. 31, Twp. 16 N., Range 10 E., M. D. M. known as the Ajaz claim bounded on the North by Lot 64-ot You Bet Mining Co. on the East by Lot 69 of You Bet Mining Co. & Lot 11-C. P. R. R. Co. & on the West & South by Lot 60 You Bet Mining Co. About 32 acres, more or less. Recorded in Vol. 30 Page 174 Nevada County, California. And Lot 16 & the North half of Lot 9 in the North part of Sec. 6, Twp. 15 N., Range 10 E., M. D. M. About 20 acres more or less. Known as the Arizona Claim. Recorded in Volume 30 page 197, Nevada County, California.

And a ¼ interest in Lot 13-Lot 5 & South half of Lot 9 in the North part of Sec. 6, Twp. 15 N., Range 10 E., M. D. M. About 80 acres more or less known as the Colorado Mining Claim. Recorded in Vol. 30 page 208 Nevada County, Calif.

Also, All those certain lots, pieces or parcels of land and mining claims situate in the County of Nevada, State of California, and more particularly described as follows, to wit:

The Old Home Placer Mining Claim, as the same is more fully described in the notice of location thereof by Bert O. Bollinger, dated December 7, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at page 186.

The Mint Placer Mining Claim, as the same is more fully described in the notice of location thereof by Bert Bollinger, dated February 14, 1931, recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims at page 206.

The Jumbo Placer Mining Claim, as the same is more fully described in the notice of location thereof by Bert Bollinger and Irma Bollinger, dated February 16, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at page 213 et seq.

Gold Dollar Quartz Mining Claim, as the same is more fully described in the notice of location thereof by B. O. Bollinger and R. A. Chipman, dated May 20, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at page 257.

Gold Dollar No. 1 Quartz Mining Claim, as the same is more fully described in the notice of location thereof by Bert O. Bollinger and R. A. Chipman, dated May 20, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at pages 256 et seq.

Old Glory Quartz Mining Claim, as the same is more fully described in the notice of location-thereof by Bert O. Bollinger and R. A. Chipman, dated June 4, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30, of Mining Claims, at pages 255 et seq.

Old Glory No. 1 Quartz Mining Claim, as the same is more fully described in the notice of location thereof by B. O. Bollinger, Irma Bollinger and Ralph W. Cleary, dated June 4, 1931, and recorded in the office of the County Recorder of said County of Nevada, in Book 30 of Mining Claims, at pages 261 et seq.

Midget Placer Mining Claim, as the same is more fully described in the notice of location thereof by Ralph W. Cleary and Grace Cleary dated Dec. 21, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at pages 193 et seq.

Wedge Placer Mining Claim, as the same is more fully described in the notice of location thereof by George H. Cleary, dated December 19, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at pages 177 et seq.

California Placer Mine, as the same is more fully described in the notice of location thereof by Ralph W. Cleary, dated November 19, 1930, and recorded in the office of the County Recorder of said county of Nevada in Book 30 of Mining Claims, at page 167.

Tom Thumb Placer Mining Claim as the same is more fully described in the notice of location thereof by Ralph W. Cleary, and Grace Cleary, dated January 20, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at pages 194 et seq.

Wisconsin Surprise Placer Mining Claim, as the same is more fully described in the notice of location thereof by Ralph W. Cleary and Grace Cleary, dated December 30, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at pages 172 et seq.

The Arrowhead Placer Mining Claim, as the same is more fully described in the notice of location thereof by Ralph W. Cleary, George H. Cleary and Hugh M. Clendenen, dated December 30, 1930, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims, at page 185.

An undivided two-thirds interest in and to Opal Placer Mining Claim as the same is more fully described in the notice of location thereof by J. F. Ryan, H. N. March and Ralph W. Cleary, dated February 3, 1931, and recorded in the office of the County Recorder of said County of Nevada in Book 30 of Mining Claims at pages 208 et seq.

Also all right, title and interest of said parties in and to the following sections and portions of sections to wit:

All of Section 25 in township 16 north of range 9 east, Mount Diablo Base and Meridian;

All of Section 30 and 31, in Township 16 North of Range 10 East, Mount Diablo Base and Meridian;

All of the South West quarter of Section 32 in Township 16 North of Range 10 East, Mount Diablo Base and Meridian;

All of the North West quarter of Section 32 in Township 16 North of Range 10 East, Mount Diablo Base and Meridian excepting therefrom Lot 8 of the South West quarter of said Section 29;

All of the North one-half of Section 6 in Township 15 North of Range 10 East, Mount Diablo Base and Meridian;

Also all lands situate within one-fourth of a mile of any lands of said parties and-or of You Bet Mining Company, a corporation, other than said Lots 1, 2 and 8 aforesaid, and the South East quarter of said section 32.

ALSO, an Undivided one-fourth interest in Lot 5, South half of Lot 9, Lot 13, in the North part of Section 6, Township 15 North, Range 10 East, M. D. M. known as the Colorado Claim of about 80 acres, more or less.

ALSO, An undivided one-fourth interest in Lot 5, South half of Lot 9, Lot 13, in the North part of Section 6, Township 15 North, Range 10 East, M. D. M. known as the Colorado Claim of about 80 acres, more or less.

Public Notice is hereby given that I will on Friday, the 10th day of February, 1933, at 11 o'clock A. M. of said day in front of the Court House door, in the City of Nevada, County of Nevada, State of California, sell at PUBLIC AUCTION for cash, lawful money of the United States, all the right, title, claim and interest of the above named defendant, of, in and to the above described property or so much thereof as may be necessary to satisfy said Judgment with costs, etc. to the highest and best bidder for cash, lawful money of the United States.

Dated January 19, 1933.

GEORGE R. CARTER,
Sheriff of the County of Nevada.
Vernon Stoll, Attorney for Plaintiff.

MOVE TO RECALL ROLPH SLOWS UP

SACRAMENTO, Feb. 9—(UP)—The recall movement against Governor Rolph, it appears, has been stopped before it started.

Widespread opposition from virtually every newspaper in the state, public officials, members of the legislature, local units of the state grange and other farm organizations have already slowed the proceedings down to nearly a halt.

Main arguments against the recall were: A special election would cost approximately $600,000, most of which would be borne by county taxpayers; if successful, the recall would accomplish nothing but to throw out the executive as his term neared a close; a new governor would mean a special session of the legislature, and it would produce endless confusion, with the people footing the bill.

The so-called "blow the dome" committee of senators, investigating the Rolph administration will center its inquiry in Los Angeles, after a brief session in Sacramento. Sixty witnesses will be summoned in the south, and the investigation will focus on the following phases;

(1) Activities of the state division of building and loans under Former Governor Friend W. Richardson, involving appointment of custodians for bankrupt associtions; (2) purchase of game refuge sites in Southern California by the fish and game commission; (3) alleged favoritism in state insurance business shown to the firm of Rolph, Landis and Ellis, of which the governor's son, James Rolph III, is a member; (4) purchase of the Lewis ranch in Ventura county for $415,000 as a site for a state mental hospital, and (5) reports of male administration at Whittier state school of juvenile delinquents.

State Controller Ray L. Riley and Fred E. Stewart, director of the state tax research bureau, launched a state wide campaign of education to acquaint the public with the "Riley Stewart" tax plan. This program, they declared, would balance the budget relieve real estate of 50 per cent of its tax burden, and solve the state's nancial difficulties.

Political gossip: Wahington reports are that Hiram Johnson will not accept a post in Roosevelt's cabinet.....This means that Governor Rolph would not get a chance to succeed Johnson. . . . . Lieutenant Governor Frank F. Merriam said in Long Beach he would not appoint Rolph to the United States senate anyway,. . .. . Despite the fact Merriam told the writer personally he'd be glad to name Rolph if Johnson should take the cabinet post. Wonder why he changed his mind?

Thousands of big, shiny deputy sheriff's badges worn by Californians would be taken away if a bill now in the legislature passes. Former Governor C. C. Young took a crack at Governor Rolph for failing to raise the taxes of public utilities. Rolph replied that the tax research bureau had made no such recommendation. Fred Stewart, director o fthe bureau, "corrected" the governor. Stewart said the report "clearly implied the tax rate on utilities is too low." Tallant Tubbs, former state senator, is going to write a book. It is going to show why the Republican party lost out because of lack of proper leadership.. . . .$54,966 was the cost of the 27 day session of the state legislature just closed.

Lucky Scrap Jelly

Chip up pieces of candied fruit—you must have at least one-half cupful and you can use twice that amount if you like. If no candied fruit is around, use broken nut meats, or small bits of candy or raisins or dates stoned and finely cut.

Make 2 cupfuls of lemon or orange gelatine. Pour the gelatine into a mould and, when it is cool and begins to "set" add the diced candy. When serving time comes, turn the mould upside down over the serving dish. Wrap it tightly with a cloth wrung out of very hot water and the jelly will fall onto the dish.

A garnish of whipped cream or condensed milk, whipped, makes the dish prettier.—Child Life Magazine.

Size of the Stars

How large are the stars? To the average individual their size is hard to comprehend, but Dr. Edwin B. Frost, famous blind astronomer in Child Life Magazine, solves the problem. The sun, he says, is 350,000 times as large as the earth, and yet some huge stars are forty million times larger than the sun.

"How are you getting along keeping bees?"

"Very well, We have not had much honey, but the bees have stung my mother-in-law several times."

SUBSCRIBE FOR THE NUGGET

MOTOR TRUCK TAXES DROP

SACRAMENTO, Feb. 9—(UP)—Steady decreases in the state gross receipts tax on motor transportation companies and the existence of "gross inequalities" necessitate a legislative change in this tax setup, according to state officials.

This motor transportation tax amounted to $449,810.62 for the last half of 1932, or $157,768,36 less than for a similar period in 1931, according to figures just announced by Ray L. Riley, state controller.

Of the new total, one-half is distributed to the counties with $389 listed as Nevada county's share, Riley announced.

Under the present law this tax is collected only from companies operating trucks or trailers as common carriers over fixed routes, on a basis of 5 per cent on gross receipts. This rate was found higher than rates paid by operators of other trucks and carriers, according to the state tax research bureau.

"There is no basis for believing that the 5 per cent rate is too high. It is the opinion of the bureau that the 5 per cent rate be continued," a report said.

"The only other alternative for eliminating the discrimination against trucking companies taxed on their gross receipts is to require other operators to pay the same amount."

As a means of achieving this equalization the bureau suggested:

1. Extend the gross receipts tax to all individuals or corporations operating trucks or trailers for compensation.

2. Increase the present net weight fees.

3. Substitute, a ton-mile tax based on the vehicle's gross weight and the number of miles it is operated.

FIRST HAND EVIDENCE

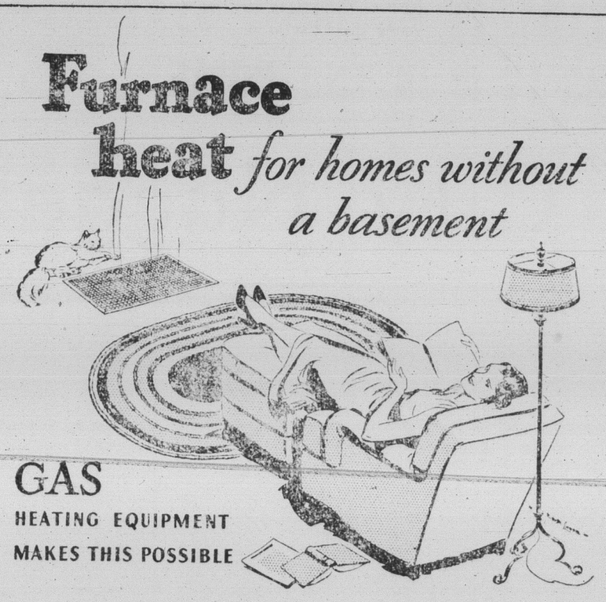
"You are called as a witness o the quarrel between your friend and his wife. Were you present at the beginning of the trouble?"

"Certainly! I was a witness at their wedding."

Ned: I wonder if it amazes a girl when a fellow catches her under the mistletoe?

Ted: It must; She always sems rooted to the spot.

Furnace heat *for homes without a basement*



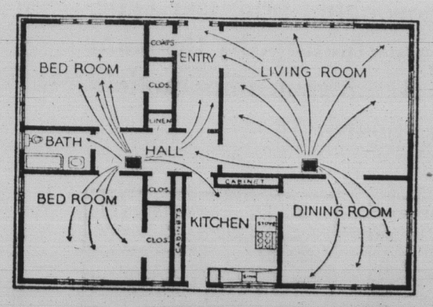
GAS
HEATING EQUIPMENT
MAKES THIS POSSIBLE

IN too many homes a heating system that gives circulated heat has been neglected. Because excavation for a basement is costly or because homes have been built so that no basement has been possible, stoves and fireplaces have become the heating system for these homes.

Today gas floor furnaces change the whole situation for homes without a basement and homes that can never have a basement. These efficient heating devices, capable of keeping homes of from four to seven rooms to "Comfort Zone" warmth, can be quickly and easily installed.

Gas floor furnaces have established a record for economy in supplying small homes with furnace heat. The local office of the P. G. & E. can show you what other residents in your locality are paying for floor furnace heat. Phone your local gas appliance dealer or talk with a representative of this company today about floor furnace heat.

Natural Gas will maintain this "Comfort Zone" 71° 65° *at low cost*



The floor plan to the left shows a typical floor furnace installation in a small home. These compact heating units rapidly circulate an abundance of warm air and are capable of heating several rooms. When of adequate size and properly installed these efficient heaters solve the problem of circulated heat for small homes at a very low cost.

NEVADA CO. MAN IS MINING IN NEW GUINEA

In last weeks Saturday Post, there was a story about the gold mines in New Guinea and inasmuch as nearly everyone in and around Nevada City is interested in gold mining either directly or indirectly we assume that it has been read by a great many. There is, however, one touch of especial interest to the story because of the fact that a brother of Mr. Fred Joubert's of Oak Valley is mentioned several times in the narrative. The Joubert family have been in the mining business since 1853 when the father of the present owners of th Depot Hill mine started operations in the present location.

But to find that a member of Nevada county family is operating mines on the other side of the world makes one realize just how small this flying earth really is. Another thing of especial interest is that operating mines in New Zealand is fraught with more hardship and engineering difficulties than anything that can be imagined here.

Snow Drifts 20 Feet Deep Around Graniteville

NORTH BLOOMFIELD, Feb. 9—Pike Salari came down from Graniteville with the stage. This is the first time he has been able to take the stage out since the big snow. The horses wore snow shoes and Salari reports that snow drifts between here and Graniteville are 20 feet deep. Steve Matteoda and Ralph Penrose made three miles in three days and Salari came twelve miles in three days. His was the first trip made in the last twelve days from Graniteville to North Bloomfield.

Nevada City P. T. A. Today... To Enjoy Good Program

The Nevada City P. T. A. will meet this afternoon at 2:30 o'clock in the music room of the grammar school. An interesting program will be rendered consisting of a voval solo by Mrs. Charles Elliott, a selection on the piano by Miss Geradine Larson, song by the kiddies in the first grade, and reports on radio talks by Mrs. Elva Kilroy and Mrs. Orlando McCraney.

LOOKING UP

(By S. G. Rubinow)

If predictions of ultra-conservative economists mean anything, we are starting to climb up.

In a comparison recently made between the present and past depresions, indexes for wholesale and retail prices indicate strongly that we have finally hit the bottom.

From these price indications, the economists see the climb back to normal conditions taking place as it has in all other periods of depression.

To the halting of the price decline, they add these factors of cheer.

Many necessary adjustments, both in fixed and operating costs, have already been made by industry and agriculture.

Many enterprises have already placed themselves in a position to produce at a lower cost per unit.

Credit is plentiful and interest rates low. For those who are in a position to borrow, there is plenty of available money.

More and more is replacement of commodities used both by producers and consumers becoming necessary.

* * *

The last factor, is the most important. It was a foregone conclusion that everything would wear out in due time. And when that time came, everything would have to be replaced.

Replacement of commodities will do more than anything else to speed up production. Speeding up production will start employment again. Resumption of employment will naturally create purchasing power.

And the entire circle of production and consumption, which all this time, was slowin gdown, will start on the upward grade again, and we will begin to climb out of the depression.

* * *

On the other hand, economists agree, there still remains a number of unfavorable factors to hold recovery back. These unfavarable problems must be solved, before we enjoy so-called good times again.

One of these blg problems relates to debts. It is pointed out that the volume of both private and governmental debts still remain unadjusted. Perhaps the coming international economic conference will iron out this difficulty.

Then here is the extreme nationalistic attitude of each country.

This is restricting international trade. Each country has adopted the policy of looking out for itself and saying, let the other countries take care of themselves.

Inthese days of international buying and selling isolated, nationalistic policies won't work. That is another difficulty that needs adjusting.

* * *

Many of our present difficulties have been accentuated by the abandonment of gold standard by many countries. One of these days, the whole world will agree to one standardized medium of exchange, eliminating fluctuations, differences in exchanges, and other disturbing elements in trade.

That day, many predict, is not far off. The sooner it comes the better it will be for everyone.

Run-Down, Weak, Nervous?

To have plenty of firm flesh and the ability to do a big day's work and feel "like a two-year-old" at night, you must relish your food and properly digest it. If you can't eat, can't sleep, can't work, just give Tanlac the chance to do for you what it has done for millions.

Mrs. Fred Westin, of 387 E. 57th St. North, Portland, Ore., says: "Tanlac cured my stomach trouble completely after three years suffering. It built me up to perfect health, with a gain of 27 lbs."

Tanlac is wonderful for indigestion—gas pains, nausea, dizziness and headaches. It brings back lost appetite, helps you digest food, and gain strength and weight. No mineral drugs; only roots, barks and herbs, nature's own medicines. Less than 2 cents a dose. Get a bottle from your druggist. Your money back if it doesn't help.

NORTH BLOOMFIELD

NORTH BLOOMFIELD, Feb. 8—Mr. A Roupe went to Graniteville 3 days ago. He came back with two pairs of skis for Relief Hill.

Loyd Bankus and partner came out from the Consolidated Mine Wednesday after supplies and returned yesterday.

North Bloomfield school will open next Monday, after having been closed for the last two weeks on account of bad weather.

The people of North Bloomfield have made a sled and ski course on the Blair Hill road. Everybody is enjoying all the sports the hill provides.

Miss Phyllis Anderson came home to spend a few days with her parents, until school opens again in Nevada City. She is a Senior of that school.

P. Salari came from Graniteville to Quinn's, breaking road.

Mr. and Mrs. Morris Kempster came from Sacramento yesterday to visit Mrs. Kempsters parents, Mr. and Mrs. E. B. Dudley.

John Hippert came from Graniteville Wednesday on skis.

A dog at Graniteville killed 10 of Mrs. McClains chickens, Wednesday night.

Miss Phyllis Anderson was injured on a sleigh ride down Blair hill Wednesday night. The side of her face and neck were badly scratched and bruised.

There has been seven and eight men on the mail route from here to Graniteville since the storm.

Clyde Foster and Bryon Genrich came from the Twin Sisters mine Wednesday for groceries.

ROLL OVER, ROLLO

The surf was on the seashore
The ship rolls on the sea;
The car rolls on the pavement,
The dog rolls on the flea;
The champ rolls on the wrestling mat.
The child rolls on the floor;
My bankroll's on the horses—
I'll never see it more.

Thimble Club Meets And Installs Officers

The Thimble Club held its monthly meeting yesterday afternoon in the Native Sons hall. A large party of Grass Valley members attended the meeting. Officers were installed. They consist of Mrs. Marguerite Clark, president; Mrs. Adeline O'Connor, secretary; and Mrs. Nance Shattuck, treasurer. The club has just completed a beautiful quilt which is to be sent to the Woodcraft home in Riverside. A delightful afternoon closed with the serving of refreshments.

Mr. Thomas Oliver, is visiting with her daughter, Mrs. H. Katzer of Gridley.

St. Valentine's Dinner At M. E. Church Feb. 14

The Ladies Aid Society of Nevada City Methodist church next Tuesday evening, February 14, will give a St. Valenting's dinner at the church. The dinner will be prepared under the direction of the Retail Grocers Association of Sacramento Valley and will be served by the members of Ladies Aid Society. The price per plate will be 50 cents.

Nevada City Elks Tonight Will Honor Past Rulers

The Nevada City Elks will this evening enjoy the annual Past Exalted Rulers Night, when the men who have presided in past years will demonstrate for their successors the way it is done. John J. Fortier, junior past exalted ruler, will be in charge of the ceremonies and he promises a good time for all members. Officers will be nominated and other important business will be transacted. Refreshments will be served by the social session committee.

METHODIST SERVICES

The services at the Methodist church next Sunday will be as follows: Sunday school at 10 a. m. Morning worship at 11 o'clock. Sermon by the Rev. H. H. Buckner; topic: "The Upper Room." Communion service will follow the sermon.

There will be a service at Camptonville at 2:30 o'clock.

In the evening in this city there will be a meeting of the Epworth League at 6 o'clock and evening service at 7 o'clock.

The mid-week service on Wednesday evening is held at 7 o'clock. On Tuesday evening, February 14, the Laides Aid Society will serve a bountiful dinner at the church.

NEVADA CO. HIGH SCHOOLS COST LEAST IN STATE

In a comparison of twenty-five high school districts throughout the state it has been found that the Nevada City and Grass Valley high schools have the lowest cost per pupil in the entire group. The group of schools studied has an average daily attendance ranging from 994 to 315. The only schools that can possibly show a lower cost per pupil are the schools with enrollment well over the 500 mark.

The figures represent district expenditures for the school year of 1931 and 1932, and were obtained from H. E. Kjorlie, principal of the Nevada City High school, who is preparing a thesis on factors of unionization of high school districts. The figures used were obtained by Mr. Kjorlie through the offices of the state department of education.

The average of the average daily attendance of the group of schools studied is 177, and the average cost per pupil of the group is $229.68.

A study of the figures for a number of the schools in the group will show conclusively that our local schools are operated under the most rigid economy possible:

School	A. D. A.	Cost per Pupil
Gonzales	139	$ 339.19
Pleasonton	114	308.11
Morgan Hill	186	255.43
Modoc	168	263.36
Colusa	197	239.92
Lincoln	197	229.41
Sutter Creek	166	212.51
Folsom	127	188.86
Escalon	168	161.83
Grass Valley	315	128.18
Nevada City	160	114.12

BANKS WILL OBSERVE LEGAL HOLIDAY MONDAY

Monday, February 13th, will be observed as a legal holiday by the banks throughout the country generally, including the local branches of the Bank of America in Nevada City and Grass Valley, and the First National Bank in Grass Valley. Lincoln's birthday falls on Sunday, February 12th, this year and it is in conformity with legal custom that the financial institutions will observe the following day, Monday, as a legal holiday.

It is suggested that those having banking business to transact Monday, arrange to do so today Saturday.

Mrs. E. Willoughby has returned from a visit with her father at Mendocino City. He has been quite ill.

HUGE INITIATION FEATURES V. F. W RADIO PROGRAM

The people of Nevada City and Grass Valley will get a treat if they will tune in on Radio Station K. P. O. at 8:30 Saturday evening, February 11 ,for at that hour the "Hello America" program of the Veterans of Foreign Wars will come on the air.

It is a program of a full hour and a quarter of entertainment, by famous orchestras, speakers and singers with Washington, D. C. New York, and Chicago, represented.

Under the direction of Banner Mountain Post, V. F. W. a radio will be installed at the Odd Fellows hall Neveda City, where those of the public who wish can assemble to hear the program. The Veterans invite the public to be their guests that evening, at the Odd Fellows hall at 8:30 p. m.

The big feature of the broadcast will be the administering of the obligation to thousands of applicants all over the country. The obligation will be administered by Admiral Robert E. Coontz, National Commander of the V. F. W. It is estimated that approximately fifty thousand applicants will take the obligation. A number are expected to take it here. It is urged that any veteran who has seen foreign service in the Army, Navy, or Marine Corps, in time of war, get in touch with any member of the local Post, who will take their application, or be at the Odd Fellows hall at 8 p. m. Saturday night with proof of their service, and they will be obligated by the national commander. It isn't every day that veterans get a chance to be obligated by the national commander, and it is to be considered an honor. It is a rare opportunity.

Following is a brief outline of the program as it will appear over the radio. The United States Marine band from Washington, Paul Whiteman's orchestra of Chicago, William P. Wright, national commander of the G. A. R. of Chicago, U. S. Marine band, followed by Floyd Gibbons, the man whose 217 words per minute over the radio is known from coast to coast. He will speak from New York. It is interesting to know that he lost an eye in the Battle of Belleau Wood, while serving as a war correspondent.

He will introduce Admiral Coontz in the Park Wardman hotel in Washington D. C. At that time he will obligate applicants, who will be waiting at receiving sets.

Following this, Jack Denny's orchestra will be heard from Chicago. A short address will be given by Mrs. Consuelle Peart De Coe, national president of the V. F. W. Auxiliary. She lives in Sacramento. The pickens Sisters trio, Helen, Jane, and Patti will be heard from New York; Vincent Lopez's orchestra and the A. E. F. chorus from New York; Senator Arthur R. Robinson from Washington, and, finally, closing with the U. S. Marine band.

Remember everybody is invited to the V. F. W. guests. Veterans who are able to do so, are requested to come and receive the obligation from the national commander.

FORMER RESIDENT OF NEVADA CITY IS DEAD

Louie M. Isoard, born in Nevada City 64 years ago, passed away Monday in his home in Sacramento, following a long illness. The family home for many years was in West Broad street. As a young man he was employed for some years as engineer for the Southern Pacific railroad, later entering the service of the P. G. & E. with which company he remained until illness forced retirement.

Surviving Mr. Isoard are his wife, Mrs. Jeannette Isoard of Sacramento and a daughter, Mrs. V. Lambert Random of Salinas. Funeral services will be held today in Sacramento.

FUNERAL SERVICES TODAY FOR R. S. MORRISON

Funeral services will be held this afternoon in Grass Valley under direction of W. R. Jefford & Son for the late Roderick Sidney Morrison, a native of Prince Edward Island, who passed away in Placerville last Tuesday.

Surviving family members include the widow, Mrs. Kate Morrison and the following children: Mrs. Vinnie Bennett, Los Angeles; John Morrison, Oakland; Duncan R. Morrison, Searchlight, Nevada; Roderick S. Morrison, Jr., Placerville; Fred C. Morrison, Grass Valley; Louis G. Morrison, Placerville.

FORTY ONE STATE LABOR CAMPS

Plans for the establishment of 5 new state labor camps have been announced by the state division of forestry. The new camps will be located at Lemoine ,near Bakersfield and three in Southern California, the sites of which have not been selected. At the present time 41 camps are being operated by the state, giving employment to more than 6,000 men.

LOCAL HAPPENINGS

Joe Swazey and Calvin Linnel of French Corral made a business trip to Nevada City Tuesday.

Charles Bushnell of the Wallace Garage in Auburn, was a Nevada City visitor on business Wednesday.

The road from Downieville to Sierra City is blocked with snow, but it is thought that it will be cleared early next week.

Expected tonight for the three day week end will be Miss Agnes Nisson of San Francisco. She is to be the guest of Miss Bernice M. Clemo.

Mr. Bryce Florence of Larkspur, Marin county, is expected today to visit Mr. George Carter for several days.

Mr. Lee Doud, manager of the Auburn division of the Rotary Oil and Burner Company, was a business visitor in Nevada City Tuesday.

Mr. Jack Hunter of this city has been in Auburn for the past week. While there, he was employed by the Slager mine in El Dorado county. He returned yesterday.

Mr. and Mrs. M. L. Mitchel and Dr. and Mrs. Swaze of this city motored to Sacramento and back Wednesday evening.

Miss Retha Downey of Smartsville, spent last Sunday visiting with her mother and other members of the family, in Nevada City.

Mrs. Henry Pimental and daughter, Virginia, of Placerville, left yesterday for their home, after a two weeks visit here with her sister, Mrs. Clara Jepson.

Mr. and Mrs. Frank Pierce of Nevada City ,went to Sarcamento Tuesday to visit Mr. and Mrs. T. Riddle of that city. Mrs. Riddle is the daughter of Mr. and Mrs. Pierce. The local couple returned home yesterday.

After a ten weeks visit in Reno and Quincy, Mrs. Ann Larson of this city, returned Tuesday night. Her brother, Dick Erway, came home the same night for a visit from Oregon, where he has been employed by the California-Oregon Power Co.

Traffic Officer and Mrs. W. C. Fouyer motored to Sacramento Wednesday with his mother, who recently underwent a serious operation. Mrs. A. Fouyer was able to return from the capitol city last Sunday. She is making a good recovery

Mr. and Mrs. Elmer Larsen of Sacramento, spent Monday in Nevada City. Mr. Larsen visited his summer home at Banner Mountain and a part of the way he was obliged to walk through snow three feet deep.

Herbert Cooper, division superintendent of the P. G. & E. of Auburn, was a Nevada City visitor yesterday.

U. S IS THIRD IN GOLD OUTPUT

Statements issued from New York recently show that 1932 set a world record in gold production with 23,500,000 ounces, or 3,658,000 more than 1929 and 772,480 ounces above the previous peak in 1915. Hard times always stimulates gold mining and this depression has proved no exception. It has caused thousands of prospectors to seek new major resources or try once again abondoned fields or mines.

South Africa retained its gold leadership last year, as it produced 11,566,000 ounces or more than half the world output. Canada, with an estimated output of 3,050,000 ounces ranked second and the United States came third with 2,050,000 ounces.

Thirty-three of the eighty-five of the world's leading gold mines are located in Transvaal, South Africa. Eight are in other parts of Africa. Fourteen are in Canada. Seven are in the United States, five in India and four in Australia. Alaska contains one. The first four on the list, in point of 1930 and 1931 gold output are in Transvaal. One in Canada ranked fifth. The biggest gold mine in this country ranked fifth.

In defense of the United States, it must be said that huge but low grade gold mines in Africa can be worked at a profit there because of the low wage scale for negroes that exists there. The same mines in this country would lie idle because of the higher working costs.

F. F. Cassidy has returned from a business visit in San Francisco.

Miss Esther Snell of Hollister is the guest of her aunt, Mrs. R. S. Fitzsimmons and family.

Deputy Sheriff William Rickard has returned from San Quentin after taking Joe Marino to serve an indefinite term for assault with a deadly weapon.

Mr. and Mrs. Will Carter of Downieville, spent Sunday visiting with his parents, Mr. and Mrs. Randolph Carter.

Martin Dellea, who has mining property in the Quaker Hill district, came down a few days ago on skis to spend a short time with his wife in Nevada City. He reports five feet of snow at his property.
